6 Methodological recommendations

6.1 Methodological recommendations for the teacher on the organization of training

Methodological recommendations for the teacher on the organization of training

This section of this work program is intended for novice teachers and practitioners who do not have teaching experience.

The discipline Cross-Cultural Analysis in Professional Activity forms the competence of the students of the CC-1. In the conditions of designing educational systems based on the principles of the competence approach, there has been a conceptual change in the role of the teacher, who, along with the traditional role of the knowledge carrier, performs the function of the organizer of the student's research work, consultant in the procedures for selecting, processing and interpreting information necessary for practical action and further development, which must necessarily be taken into account when conducting lectures and practical classes in the discipline " Cross-Cultural Analysis in Professional Activity "

The teaching of theoretical (lecture) material on the discipline " Cross-Cultural Analysis in Professional Activity " is carried out on the basis of interdisciplinary integration and clear interdisciplinary connections within the framework of the educational program and curriculum.

The detailed content of individual topics of the discipline " Cross-Cultural Analysis in Professional Activity " is considered in paragraph 3.3 of the work program.

Approximate variants of tasks and test tasks for the current control and a list of questions for the exam in the discipline are presented as part of the FOS for the discipline in paragraph 7 of this work program.

The list of basic and additional literature, databases and information reference systems required in the course of teaching the discipline " Cross-Cultural Analysis in Professional Activity " is given in paragraph 4 of this work program.

6.2 Methodological guidelines for students on the development of the discipline

Obtaining in-depth knowledge of the discipline is achieved through the active independent work of students. It is advisable to use the allocated hours to get acquainted with the educational and scientific literature on the problems of the discipline, the analysis of scientific concepts.

Within the framework of the discipline, various forms of monitoring the level of achievement by students of the declared indicators of competence development are provided.

Forms of current control – the activity of work in practical classes, testing.

The form of intermediate control in the discipline is an exam, during which the level of achievement of the declared indicators of competence development by students is assessed.

Methodological guidelines for the development of the discipline.

Lectures are conducted in accordance with the content of this work program and are a presentation of the theoretical foundations of the discipline.

Attending lectures is mandatory.

Taking notes of the lecture material is allowed both in writing and by computer.

Regular repetition of lecture notes for each section in preparation for the current forms of certification in the discipline is one of the most important types of independent work of the student during the semester, necessary for high-quality preparation for intermediate certification in the discipline.

Conducting practical classes in the discipline "Cross-Cultural Analysis in Professional Activity" is carried out in the following forms:

– a survey based on materials reviewed at lectures and studied independently according to the recommended literature;

– analysis and discussion of issues on topics, problem solving.

Attendance of practical classes and active participation in them is mandatory.

Preparation for practical classes necessarily includes the study of lecture notes and recommended literature for an adequate understanding of the conditions and method of performing tasks planned by the teacher for a specific practical lesson.

Methodological guidelines for performing various forms of extracurricular independent work

The study of the main and additional literature on the discipline is carried out on a regular basis in the context of each topic to prepare for the intermediate certification in the discipline "Cross-Cultural Analysis in Professional Activity". The list of the main and additional literature on the discipline is given in paragraph 4 of this work program.

Methodological guidelines for preparation for intermediate certification

Intermediate certification in the discipline "Cross-Cultural Analysis in Professional Activity" takes place in the form of an exam. An approximate list of questions for the exam in the discipline "Cross-Cultural Analysis in Professional Activity" and the criteria for evaluating the student's response for the purpose of evaluating the achievement of the stated indicators of competence formation are given as part of the FOS for the discipline in paragraph 7 of this work program.

The student is allowed to intermediate certification in the discipline, regardless of the results of the current progress control.
